

Accessibility Statement for SBG Beauty

This is an accessibility statement from SBG & CO.

Measures to support accessibility

SBG & CO takes the following measures to ensure accessibility of SBG Beauty:

- Include accessibility as part of our mission statement.
- Include accessibility throughout our internal policies.
- Assign clear accessibility goals and responsibilities.
- We are a brand new start up and are committed to ensuring accessibility to the best of our capabilities. Our facility is on the upper level of our business address. Unfortunately there is no accessibility. We did however curate professional treatments in our Collection series for those who do not normally get a facial treatment, or who cannot come to a skin clinic.

Conformance status

The [Web Content Accessibility Guidelines \(WCAG\)](#) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. SBG Beauty is partially conformant with WCAG 2.1 level AA. Partially conformant means that some parts of the content do not fully conform to the accessibility standard.
